Fundamental factors for beautiful skin

For achieving beautiful skin , following factors must be idealized . The combination of **VC Lotion and Ascocream** provides perfect solution .

The combination of VC Lotion and Asco cream provides perfect solution though Vitamin C derivatives and innovative Nano capsule technology .

Benefit of Absolution series

What is VC Lotion ?

It's known that Vitamin C has a lot of benefits, however the problem is it's easily oxidized just on the skin surface and hard to penetrate and absorb into epidermis and dermis.

Vitamin C derivative formulated in **VC Lotion** can be easily absorbed into dermis and transforms into vitamin C in the tissue by enzymatic hydrolysis action. Through this process, VC lotion demonstrates the maximum efficacies in the tissue

Unique combination of Vitamin C derivative ?

There are several kind of Vitamin C derivatives. For achieving the best stability and efficacy, VC Lotion is formulated following Vitamin C derivative.

5% of Vitamin C derivative

What is ASCO cream ?

For more effective skin care, daily maintenance of intercellular lipid in keratin layer is also very important manner . **Asco cream** is a special multifunctional cream for achieving normalization of keratin layer and epidermis and dermis also.

Nano capsule technology

Asco cream is formulated Nano capsulized **Ceramide NP (Ceramide 3)** and **Sphingomyelin** which has a similar molecular structure to intercellular (Lamellar structure)

➔ Quick recovery of skin barrier function

Nano capsule technology

Innovative Nano capsule technology

Penetration Process
